

SCHOLARSHIP OPPORTUNITIES

Invest in us and we'll invest in you

Capitol Scholars Program

STEM degrees are in-demand, as they make for a marketable employee and yield high-paying job opportunities in our technology-driven economy. As a STEM institution, Capitol Technology University understands the value of an education in these fields. Capitol Tech is helping students earn their STEM degrees through the Capitol Scholarship Program (CSP), which awards full tuition scholarships to a select group of applicants each year.

The CSP program was established in 2008, and since then, candidates have been chosen each year from among its applicants. The CSP program is specifically geared towards students who excel in computer science, engineering, and information technology (IT) and are applying for degrees in these fields at Capitol Tech.

What Makes Capitol Unique ?

- **12:1** student-to-faculty ratio
- **16 to 61** age range of our undergraduate students
- **80%** of the full-time students receive some form of financial aid
- **82%** of our students had a job offer (or chose to go on to graduate school) within 90 days of commencement

Requirements

To be eligible, all applicants must have:

- Must be accepted to Capitol Technology University,
- plan to attend Capitol as a first-time freshmen in an on-campus program,
- 3.0 or higher GPA, and
- have attended three or more AP/Honors/IB/PLTW or concurrent enrolled courses with a C or better.

Who Can Apply ?

- High school graduates
- Students pursuing STEM bachelor's degrees

While recipients of the CSP scholarship are accomplished individuals who are chosen from a select group of applicants, Capitol Tech recognizes each applicant for their incredible accomplishments, professionalism, and courage in sharing their achievements and pursuing their goals, and encourages them to pursue other scholarship and financial aid opportunities provided by the university.
