*Advisory Board*

**Dr. William Butler**  
*Advisory Board*

Capitol Technology University's Center for Women in Cyber (CWC) is focused on empowering women of all ages to pursue careers in cyber. This Center seeks to address the growing need for women professionals and leaders in cyber-related fields.

The technology field's gender gap has been a persistent challenge. The CWC encourages women to seek opportunities in the important and developing field of cybersecurity so their contributions can be embraced. Women leaders are unmatched in terms of creativity, perspective, and collaboration. The CWC provides the resources, direction, and positive support needed for success in achieving professional and educational goals through presentations, hands-on activities, partnerships, and mentoring. The CWC is passionate in its quest to develop the next generation of diverse cyber leaders.

## OUR MISSION

The Center for Women in Cyber (CWC) empowers women of all ages to pursue cyber careers. Through presentations, hands-on activities and mentoring, the CWC community provides direction, encouragement, and support to the next generation of cyber leaders.
