

# Construction Safety Careers are Always a Safe Bet.

Capitol Technology University provides students with the fortified education, unshakable industry knowledge, and grounded problem solving skills employers seek in construction leaders. Start building your career at Capitol.

## Safety Programs at Capitol

### Bachelor of Science (BS) in Construction Safety

An online degree in construction safety educates students on the requirements expected of professionals in a breadth of construction-related fields. This degree prepares graduates with a strong foundation in construction, safety, risk management, and management skills to prevent common workplace accidents.

The Bachelor and Masters of Science Degrees in Construction Safety are recognized as a Qualified Academic Program (QAP) by the Board of Certified Safety Professionals (BCSP), meeting the qualified credential requirement for the Graduate Safety Practitioner (GSP).

### Master of Science (MS) in Construction Safety

Capitol's online master's degree in construction safety prepares professionals with skills to plan, direct, and implement construction safety programs necessary for managerial positions. Graduates of the program also gain the required safety knowledge needed when applying for the credentialing through the Board of Certified Safety Professionals (BCSP).

### Doctor of Philosophy (PhD) in Occupational Health and Safety

New technology and practices create new challenges for occupational health and safety professionals to identify hazardous conditions and prevent injury or harm to workers.

This online PhD enables graduates to conduct in-depth research, gain insight needed for key leadership roles, develop solutions to the evolving challenges that occupational health and safety professionals are facing, and become an asset to any employer.

Capitol Technology University, established in 1927, is a private-non-profit university. Capitol Technology University is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools.
