

Student Workers and Supervisors:

We recently communicated that all classes would continue fully online through April 24th, the end of the spring semester. We had advised in an earlier notification that student employees would be paid the wages for their regularly scheduled work even though the majority of student employees could not perform any work duties. We are writing to advise that we will continue to pay student employees, on the same basis as before, through April 24th.

A separate email communication will be sent to student workers and their supervisors with the timesheet designated as COVID-19 as an attachment.

If you have any questions please contact us as student_employment@captechu.edu .

Thank you,

Katy DeHart
Vice President
Human Resources & Risk Management
